

Special machines

KLEY FRANCE is noted for its ability to take special machines projects from concept definition phase through design, manufacture, assembly up to testing, installation, and subsequent long term customer support.

Inventory of our main successfully realized projects :

- pipe rounding machine
- 3000 T. push-pull
- steel cutter
- submarine vehicle for pipeline anchorages
- bi-driller for submarine anchorages
- trolleys
- etc...

Submarine vehicle for pipeline anchorages

Pipe rounding machine

3000T push-pull
